

The Healer's Guide

Overview

- Take note of the patient's symptoms. On top of listening to them, you should pay attention to what you can see of their physical state.
- Look through this booklet to find a diagnosis that fits their symptoms
- Click the grey button in the top left corner that will appear to bring the patient to the 'healing room'
- The area below the diagnosis will have numbers that correspond with the body part as depicted in the page across from this one.
- Press them in the order listed in order to heal.
- Do what you can to ensure that the patient has a healing and fulfilling experience
